

SAP Consultancy, Edenhouse Solutions Help Warburtons Secure a Bronze SAP Quality Award

Household brand, Warburtons secure a Bronze SAP Quality award for their SAP Business Suite on HANA implementation

(PRWEB UK) 15 November 2017 -- Warburtons are selected as the Bronze Winner of the SAP UKI Quality Awards in the Transformation category for their migration to SAP Business Suite on HANA.

Implemented by SAP Consultancy, Edenhouse Solutions, SAP's Quality Awards celebrates and recognises businesses who have excelled in the implementation of their SAP solution.

Looking to safeguard their future, Warburtons turned to multi-award winning consultancy, Edenhouse Solutions to migrate their business to SAP Business Suite on HANA, a solution which would support their ambitious growth and development plans.

With years' of experience of working with food and drink manufacturing businesses, Edenhouse Solutions were keen to ensure that the migration caused minimum disruption to Warburtons' business.

The SAP Consultancy worked directly with SAP to find a resolution, and in a UK first, Warburtons was accepted as a pilot to test the SAP Optimised DMO SUM tool. A tool designed to optimise migration performance and reduce downtime, which reduced Warburtons' overall downtime from 35 hours down to 15 hours.

Ian Mallinson, IT Director at Warburton's commented; "Since our migration we've taken advantage of the obvious speed improvements. Now, thanks to SAP Business Suite on HANA, things that used to take hours now take minutes, things that used to take minutes now take seconds. It is making us think about what else we might do, we need to further exploit the value of Business Suite on HANA and start our journey to S/4HANA."

Notes to Editors

About Edenhouse

Edenhouse Solutions is a full-service SAP consultancy providing fully integrated end-to-end business solutions for both new and existing SAP customers. We implement the latest SAP technologies and cloud innovations and provide a complete service of enterprise solutions from Licence, Implementation Services, Managed Services, through to Support and Maintenance. We're one of the most experienced SAP HANA partners in the UK, with expertise gained through multiple HANA projects and now more recently the migration and implementation of S/4HANA.
